GREAT BIRDMEN TO FLY

At the Courier Aviation Meet in Evansville June 9 and 10.

That Glenn Curtiss birdmen will bring out the largest crowd that was ever entertained is an assured fact. The railroads, the traction lines, the steamboat companies and the merchants of Evansville have all put their shoulders to the wheel and are doing everything in their power to make it a success.

This is the first aviation meet ever held in Southern Indiana and the second of any consequence in the state, and the fact that the Evansville Courier is bringing this meet to Evansville is in itself a guarantee that the first aviation meet of Southern Indiana will be a great success. The Courier is to be congratulated on having two such famous fliers as Lincoln Beachey and C. C. Witmer assigned to this meet. Beachey is considered the foremost American flyer now before the public and is much in demand at the Eastern meets. The New York papers rank him along with Hoxey and Johnston as a dare devil, a man absolutely unafraid and for whom no chance is too great. Witmer is noted for his altitude flights, and while in Evansville he will try to establish a new record. Witmer will also be entered in the five mile race against an automobile.

Other exciting events will be pulled off, a five and a ten mile motorcycle race, automobile races, High School track meet open to all High Schools in Ind., Ill., and Ky., for which suitable prizes will be offered by the Evansville merchants.

Special low rates are offered on all railroads, steamboat and traction lines entering Evansville.

Tickets are now on sale at the Courier office.

Can't Always Sometimes Tell.

At Reno the police, coroner, and undertaker had pronounced a man dead, when he sat up and asked for a glass of beer. They hadn't thought of offering him a glass of beer to discover if he was dead.

A Tough Meal.

Tastes differ strangely from age to age. Flamigoes' tongues were an epicurean luxury in Roman days, but the authors of "Unexplored Spain," who experimented with them, found no pleasure in the meal. "The tongue," they say, "is a thick fleshy organ, filling the whole cavity of the mandibles, and furnished with a series of flexible, bony spikes or hooks nearly half an inch long and curving inward. We found them quite uneatable—tough as India rubber. Even our dogs refused to eat the delicacy."
